

AESIR[†] **DIGITAL ASSET MANAGEMENT**

AESIR[™]

Digital Asset Management (DAM)

In an era of accelerating digital transformation, the concept of digital assets is also rapidly expanding. Put simply, almost everything is a digital asset nowadays.

Improving the Staff Experience is paramount to scaling growth based on the optimization of workflows and processes that give access to structured digital property, making it easy and quick to find and use (or re-use) any digital asset.

Therefore, Digital Asset Management must be an essential part of operations; planning and managing data flows across multiple networks and channels, yet in a valuable manner that saves on resources, enriches assets and improves the staff experience.

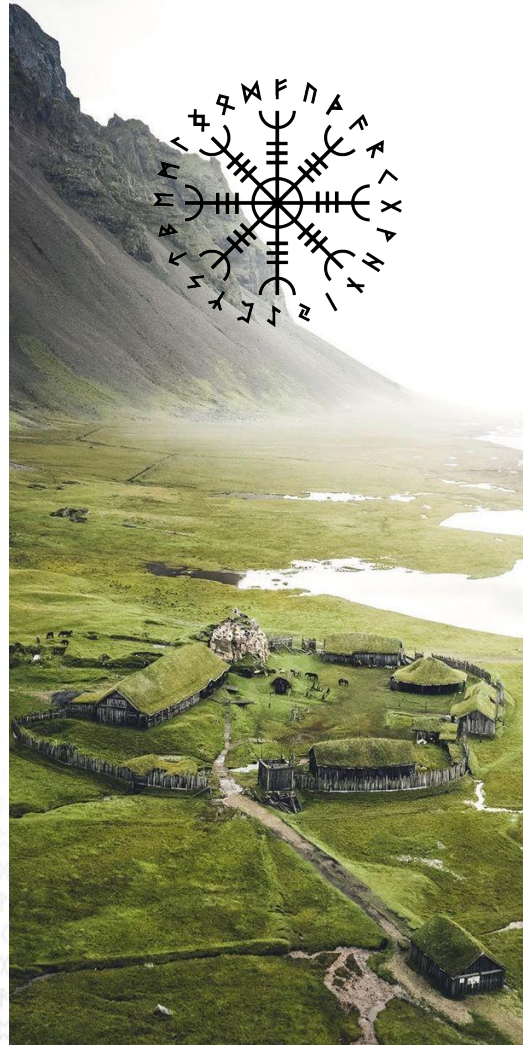

AESIR^X

Digital Asset Management as a Service

AesirX DAM is our enterprise-level Digital Asset Management as a Service (DAMaaS) platform. It fully connects and integrates all digital assets to the web, e-commerce, mail, social media, DXP, ads, and any other integrative channel ensuring brand consistency and ease of access for all staff in the organization.

AesirX DAM has an Open Source FREE PWA Frontend that is fully customizable, making it more in line with your brand identity and creating a consistent asset portfolio. This also allows staff to easily locate the right digital assets and get the most out of your asset catalog, regardless of whether you need images, videos, PDFs, or other digital materials; having a structured digital asset management platform is a requirement for growth.

We provide the DAMaaS for free, with reasonable limitations, and also offer 3 tiers that are self-hosted/managed from only \$49 per month, as well as a fully hosted and managed Enterprise edition.

Bring your team and assets together with AesirX DAM

AESIR[™]

AesirX Solution Series

AesirX DAM is part of the AesirX Solution Series.

In the past decade, we have invented and developed Aesir - the world's first actionable 1st-party data Digital Experience Platform that is legally compliant and privacy-first. Aesir enables our customers and our partners' customer journeys in the most meaningful way by utilizing qualitative first party behavioral data to personalize each Customer, Staff or Learning Experience.

AesirX DAM fully integrates with the entire AesirX solutions family and ensures that company staff only ever have to use the same optimized interface when working with digital marketing. This saves up to 80% of staff hours and up to 80% of the cost in enterprise-level organizations.
